

Kaminco, the representative of Emerson Process Management for Greece and Cyprus has the pleasure to offer Mobrey to the marine community.

mobrey

Mobrey has many years of experience and expertise supplying instrumentation to meet the stringent requirement of the marine industry, specialising in the manufacture and supply of products suitable for constant "active" service at sea for both UK and foreign, Military and Merchant navies.

For the Merchant marine specifically Mobrey offers equipments designed to meet the stringent requirements for Classification Societies, where robustness and reliability is of vital importance, Mobrey instrumentation is the ideal choice for the wide range of diverse and critical applications encountered in the aggressive environment of the marine engineer.

Feel free to visit the following links with the applications of Mobrey at the different shipping categories.

Container Ships

Oil & ballast tanks

[Interface sensors for oil/water detection](#)

95% and 98% high and high high level control

[Dual hi-sens fail-safe high level sensor](#)

Bilge level and alarms

[Electromechanical float level switches](#)

Flood detection

[003 integral ultrasonic gap level sensors](#)

HFO fuel oil blending/heating control

[7829 Viscomaster](#)

[7829 Viscomaster Dynamic](#)

Cargo ships

Oil & ballast tanks

[Interface sensors for oil/water detection](#)

95% and 98% high and high high level control

[Dual hi-sens fail-safe high level sensor](#)

Bilge level and alarms

[Electromechanical float level switches](#)

Flood detection

[003 integral ultrasonic gap level sensors](#)

HFO fuel oil blending/heating control

[7829 Viscomaster](#)

[7829 Viscomaster Dynamic](#)

Gas carriers

Control of LPG and liquid oxygen

[Ultrasonic gap and cryogenic gap sensors](#)

Passenger ships

High and high high level control

[Dual hi-sens fail-safe high level sensor](#)

General tankage and ballast

[9700M hydrostatic level transmitter](#)

[Electromechanical float level switches](#)

[Ultrasonic level transmitter](#)

Loading gantry water ingress

[Squing 2 vibrating fork level switches](#)

Lavatory systems control

[003 integral ultrasonic gap level sensor](#)

Fuel oil quality

[7829 Viscomaster](#)

[7829 Viscomaster Dynamic](#)

Hovercraft/Hydrofoils

Level measurement of fuel tanks and ballast tanks

[Ultrasonic fail-safe point level sensors](#)

Level measurement water height from loading ramps

[MSP900 non-contact ultrasonic level meter](#)
