SAAB TankRadar training for safer operation

Saab Rosemount Marine offers training for your Saab TankRadar. The training is intended for officers, engineers, cargo operators and Crew. Our 2-days training contain theory and hands-on exercises, for you to get the most out of your Saab TankRadar system. Your teachers will be our experienced service engineers.

The training takes place either at Saab Rosemount Marine in Gothenburg or at a site of your choice. Although we always recommend performing the training at Saab Rosemount Marine training-centre in Gothenburg, Sweden where we have all equipment needed for the hands-on exercises.

Training contents:

- Saab TankRadar basics
- Hands-on-exercises
- Safety, IS
- Operation
- Maintenance
- Service and troubleshooting
