## G<sub>3500i</sub> Inert Gas Oxygen Analyzer

The G<sub>3500i</sub> Inert Gas Oxygen Analyzer, developed in 2003, was one of the first marine oxygen analyzers making use of the zirconium dioxide sensor technology. In 2005, our SBS<sub>3500i</sub> was the first zirconium based analyzer to receive marine type approval under the Marine Equipment Directive.

The end customers are not always known to us.

### Major OEM Customers are:

-  Hamworthy Moss AS, Moss, Norway – Inert Gas Generators
-  ETech Process AS, Kristiansand, Norway – Nitrogen Generators
-  Verhaar Omega B.V., Leiden, Netherlands – Nitrogen Generators

### Major Tanker Customers are:

-  Teekay Marine Services, Singapore, Grimstad, Vancouver, Houston, London
-  Hanseatic Shipping Company, Limassol, Singapore
-  Great Eastern Shipping Co. Ltd., Mumbai
-  Columbia Ship Management, Hamburg, Limassol
-  International Tanker Management, Hamburg, Mumbai, Singapore
-  Shell International Trading & Shipping Co. Ltd. (STASCO), London
